

FREE FCDL MEMBERSHIP FOR COMMUNITY AND VOLUNTARY ORGANISATIONS AND NETWORKS

If you are a community and voluntary organisation and network with an income less than £15,000 pr. year and you are interested in being actively involved with FCDL, we would like to offer you **FREE** membership of the Federation for Community Development Learning (FCDL) for 1 year.

Why is this?

Because we are in constant contact with small unfunded community groups and networks and we are interested in supporting and continuing to learn from you. So we have changed our membership criteria.

What is FCDL about?

We support a network of individuals, groups and organisations around Community Development learning and practice and wish to share information and good training practice, to learn from each other and to provide good opportunities for Community Development practice and learning.

What do we get out of it?

We are currently looking at funding opportunities and we endeavour to try our best to secure funding that will allow for networking opportunities for our members who are doing Community Development.

Other benefits include:

You will receive a reduction on the cost of any FCDL publication

You will receive our monthly email bulletin, which contains an up date on FCDL work, funding opportunities, training opportunities, events, as well as featuring any relevant topic or events that you want us to promote about your activities, group or organisation.
