

Planning support for Carers in North Lincolnshire

Last year the Council launched an All Age Carers Strategy which set out our approach to supporting carers locally. Now we want to continue the conversation with carers about their priorities as we look at planning and commissioning support services for carers.

We want to find out from you what the needs and priorities are for carers in North Lincolnshire.

What you tell us will help the development of the right service in the right place at the right time with the right support.

We will let people know what we have found out and what we did. To do this we will publish information on the Council's and CCG websites.

Are you a current carer	Yes	No
Have you previously been a carer	Yes	No
Are you not a carer but have an interest	Yes	No
